

If you "knuckle-bust" at shows using a manual imprinter, please make sure that the full number and the expiration date is clear. Also, you will need to get the following information: address (where card is billed), telephone number, and the 3-digit security code on back of the card. I also recommend getting the customer's cell number and email address. I have created a [knuckle-bust form](#) to help you with this. Hint: Remind your customer how the charge will appear (your name or your dba name) on their bill.
